Good afternoon Alena.

I would like to thank you for the opportunity review the plans for the proposed development at 46 South Street. As we discussed in our meeting, I do not have any concerns about the increase demands placed on the Trumansburg EMS agency. The village has the resources in both equipment and personnel to handle this increase now and for the foreseeable future.

I wish you all the best moving forward with your project.

Respectfully,

Brian Snyder
EMS Manager
The Village of Trumansburg

Hello Jason and Bryan,

Thanks again for meeting with us this morning to discuss the proposed development at 46 South Street and whether fire and EMS services would need to increase personnel or equipment to properly handle the estimated 200 person increase in population over 10 years. It'd be great to get a note from you about this by this Friday, if possible. Thank you!
